EXHIBIT CONCEPT:

For 20 years, the SBAWCA has brought women's art into the spotlight. This exhibit celebrates these years of achievement by portraying our personal journey and reflects how the past 20 years have defined us artistically. Each of us brings a diverse perspective, intrinsic purpose and heartfelt passion to our work. The theme reflects the then and now of exhibition history through "Perspective, Purpose and Passion", the work reflecting our personal observations of the past two decades, manifesting visually in our art.

SBAWCA's membership comprises active, artistic, Silicon Valley women who forge creative journeys as amazing individuals, inspired by innovative viewpoints. Each of us is stimulated and influenced by our environment and life, bringing a unique and valued importance to artistic contribution. Our work represents years of intersecting symbols, family, culture and experience. We are scientists, photographers, painters, printmakers, sculptors, scholars, teachers, musicians, and activists. We represent the crossroads between science, music, art, history, culture and globalization as evidenced by our photographs, prints, monuments, performances and paintings.

SUBMISSION GUIDELINES: SBAWCA Membership as of July 15, 2009 is required.
